THIRTY-FIRST YEAR NO. 28.

CEDARVILLE, OHIO, FRIDAY, JULY 3, 1908.

PRICE \$1.00 A YEAR.

W. D. NESBIT'S HOME-COMING.

The July issue of the Midland, an excellent publication put out by the Midland Publishing Company of Cincinnati contains a page of interesting matter from the pen of William D. Nesbitt. It deals with matters and history of a local nature, particularly the Home-Coming.

"Cedarville is a little beauty spot in Greene County, on Massie's Creek and near the Little Miami River. Clifton is on the Little Miami—it was of Clifton, that the effervescent Ke Cummins once said to a party of tourists: 'Gentlemen, old Greene County is a home and we have just reached its tail!' At Clifton there are five authentic places where Simon Kenton leaped across the river to escape the Indians—one spot required a leap of some eighty feet. However, there is a place on Massie's Creek where Simon made his leap for life, also, and there is an Indian mound from which Warren Morehead has procured the original swastika. Also at Cedarville there is a lost Indian cave, in which are untold fortunes in virgin gold nuggets—and years ago, before any of us were alive, there used to be an old Indian who came there annually and acted so mysteriously that undoubtedly he was getting a little pocket money out of the lost cave. Once the writer and Harry Bliff and Orl Morton found the cave, and Orl went in on all fours to get the gold, but a pole cat was resting there and objected. Maybe it wasn't Cal Morton, but it was some other boy, anyhow; and whoever he was he was not a social favorite for a whole week, and there wasn't anything in Ben Ridgway's drugstore that could be poured on or rubbed in that would remove the pungency, so to speak. As Tom Moore so aptly put it:

"You may cuss, you may label the skunk if you will. But the scent of its presence remains with you still." So, we're all going back home some time or other this summer—all of us Ohio people. Some of us to Greene county, some to Anglin's country. And there's this blessed thing about Ohio—the people who will greet us, will be just as glad to see us home again as we will be to get there. It is a wonderful thing for mankind—this idea of Home-Coming Week. It broadens our hearts and better us; it sets our feet in old paths; we breathe the old air; we see the old flowers and old hills, and the old people—God bless 'em. Whether we drop off the train at the little way station and find our way up the street on each side of which roses peer through broken pallings of sleepy fences, whether we climb into a shiny trap and speed along a boulevard, whether we pile ourselves into an old family carriage and roll out on a pike beside fields from which drift heavy odors of clover and hay, over the bridge beneath which grows mint that specks the twilight, through the woods where shadowy fairies dance among the trees, to bring up at old gate opening on the old walk between the beds of phlox and marigold and sweet William and four o'clock—it's home! And home is where the heart is and the heart is where home is, now and forevermore.

"It Pays to Trade In
SPRINGFIELD."

SHERIFF'S SALE.

STATE OF OHIO,
Greene County, ss. }
Pursuant to command of an order of sale issued in the Court of Common Pleas of said county, and to me delivered, I will offer for sale at public auction at the front door of the court house, in the city of Xenia, in said county, on
Saturday, July 18th, A. D. 1908,
at 2 o'clock p. m. the following described lands and tenements, to wit: Situate in the County of Greene, State of Ohio; and in the Village of Cedarville, and bounded and described as follows, viz: Being the whole of lot No. 71 in John Orr's Third addition to the Town of Cedarville more fully described in the plat of said town, and being the same property conveyed to John Ross by John Orr by deed dated August 11, 1853, and recorded in Vol. 36—page 620 of the deed records of said county.
Said premises were appraised at Five Hundred dollars (\$500).
Terms of Sale: Cash.
To be sold by order of said Court in Case No. 11433 wherein W. L. Miller is plaintiff and Alexander Hall, Adm'r, is defendant.
HOWARD APPLIGATE,
Sheriff, Greene County,
W. L. MILLER,
Plaintiff's Atty.

LEGAL NOTICE.

Ellen Levalley whose residence is unknown will take notice that Jacob C. Levalley, her husband, on the 17th day of June 1908, filed his petition against her in the Court of Common Pleas in Greene County, Ohio, praying for a divorce from her on the grounds of gross neglect of duty and for adultery with a James A. Finkbone which came will be heard before the said Common Pleas Court on the 3rd day of August 1908 by which time she will be required to answer.
Jacob C. Levalley,
By J. N. Dean, att'y. 7-31-d

TRUNKS—\$3 to \$12.

SULLIVAN,

The Hatter,
21 South Limestone Street,
Springfield, Ohio.

CANDIDATES FOR THE PRIMARY.

The candidates for the various county offices, subject to the Republican primary election August 3rd are all in line now, [the "entries" having closed at 12 o'clock, noon, Saturday. With the exception of the offices of prosecuting attorney, sheriff, county surveyor and central committee in one or two precincts there is competition, and judging from the caliber of the contesting candidates, the race for each office will be spectacular, to say the least. There are only two candidates for each of the most important offices, but in the others the candidates vary from two to six in number.

Probate Judge—Chas. F. Howard, W. F. Traller.
County Auditor—Wm. Dodds, Walter L. Dean.
County Treasurer—T. S. Dines, R. K. Grieve.
County Recorder—M. A. Broadstone, B. F. Thomas.
Clerk of Court—S. O. Hale, L. T. Marshall.
Prosecuting Attorney—Wm. F. Orr.
Sheriff—Howard Applegate.
County Surveyor—S. Milton McKay.
Coroner—Dr. P. C. Marquart.

The Central Committee, Cedarville township: D. B. McElwain, J. C. Townsley and Andrew Jackson.
Corporation—G. Y. Winter, Ralph Wolford, T. B. Andrew and S. C. Wright.

SPRINGFIELD'S FOURTH.

A salute of 21 guns will usher in the monster Fourth of July celebration at Springfield. The salute will be fired at 9 a. m., just one hour before the street pageant starts. Many military and secret organizations will take part in the parade and numerous novel stunts will be in evidence. The parade will end at the Clark County fair grounds and will be followed by a baseball game between the local and visiting teams.

The official program for the afternoon entertainment is as follows: 1:00 o'clock, band contests; 1:50, prize drills; 2:00 o'clock, balloon ascension and parachute drop by H. H. McGill, editor of the Osborn Local and the only one-armed aviator in the world; 2:15, trotting race; the Nelson DeVauwter company, club jugglers; pacing race; the Aerial Budds, sensational trapeze artists; trotting race; upside-down Duffy, America's upside-down juggler; pacing race; DeVauwter and DeVauwter, tancy and trick rifle shooting and expert rope spinners; free-for-all race; the Five Alton Troupe, European acrobats; automobile race.

Evening program: Band concert at 7:00 o'clock; vaudeville and circus acts repeated, beginning at 8:00 o'clock; sham battle by Yolo tribe, L. O. R. M. at 9:00 o'clock; grand display of fire works 9:30 to 11:00 o'clock.

In case of inclement weather the vaudeville and amusement program will be carried out in full at the New Sun Theatre.

CORN CORN

I will sell you corn so as to save you the middleman's profit.

WORMS

AND
Their Treatment

It would surprise to learn how much of the sickness of the children is due to worms in the stomach and intestines. Worms sap the strength of the child, and the symptoms disappear when the worms are expelled and the system is no longer robbed of the nourishment it requires.

Worms are most frequently found in children, but they are by no means rare in adults. For expelling worms from the body, nothing better has been discovered than

A. D. S. Worm Syrup

which besides its action on worms purifies and enriches the blood, thus causing complete restoration of health. It is especially recommended, because, when it is used as a precautionary measure, and no worms are present, it exerts its tonic influence and can do no harm.

ISAAC WISTERMAN.

ANNOUNCEMENTS.

We are authorized to announce the name of W. F. Traller as a candidate for Probate Judge subject to the Republican primary election, August 3rd.

B. F. Thomas wishes to announce that he will be a candidate for County Recorder of Greene County subject to the Republican primary to be held Aug. 3d, 1908. Your vote and influence solicited.

We are authorized to announce the name of L. T. Marshall as a candidate for Clerk of Courts subject to the Republican primary, August 3d.

We are authorized to announce the name of Dr. D. A. Spahr as a candidate for Representative before the Republican primary to be held August 3, 1908.

We are authorized to announce the name of Walter L. Dean as a candidate for County Auditor subject to the Republican primary to be held on August 3d.

We are authorized to announce the name of T. S. Dines as a candidate for County Treasurer subject to the Republican primary to be held August 3, 1908.

We are authorized to announce that Charles F. Howard will be a candidate for Probate Judge, subject to the Republican primary, August 3rd.

A WORD ABOUT
SAFE DEPOSIT BOXES.

How much better to have your deeds and personal papers where they are safe from fire and readily accessible. A misplaced paper often causes worlds of trouble. We have them for rent at less than one-third of a cent per day.

THE EXCHANGE BANK,
Cedarville, Ohio.

Fifteenth year opens Sept. 15. Teachers should examine our Teachers' course. Students for the ministry, law, medicine and professional teaching should study our Classical and Philosophical courses. Those who wish studies preparatory to agriculture, civil, electrical, and mechanical engineering can find them in Cedarville College. Our courses in Music and Oratory are exceptional. All who want a thorough education can get it right at home in Cedarville College at a trifling expense. Young people, come to college. Every parent is calling for college graduates. Catalogue free.

DAVID MCKINNEY, President.

SUPPORT YOUR HOME MERCHANT.

The fact that prices of goods you can get of home merchants is lower than you pay in cities, is too often overlooked in a desire to go away or send away for your needs. Just take a pencil and figure it out for yourself and see if it is not true! For the cities figure on high rents, high clerk hire and a dozen other expenses that a country store gets along without, and the answer is easy, and when the catalog comes from your mail order house, draw an easy chair to the table where the light will shine full upon the page and put on your glasses that no bargain may escape your eye. What a wonderful book to be sure, wonderful for what it does not contain as well as what it does. We miss some things we would be glad to see. Where is their offer to cash or exchange goods for your wheat, oats, corn, beans, butter, eggs and hay? How much do they pay for cattle, sheep and hogs? o. b. at your depot? How much will they pay to support your schools and educate your children, for improving roads and bridges, the support of the poor of the county, for the expense of running the business of county, township and state? On what page is their offer to contribute money to the church? What line of credit will they extend you when your crops are poor and money gone, when through illness or misfortune you are not able to "cash with order" for your groceries, clothing, farm tools and crockery? Where is their offer to contribute to your next year's entertainment? In short will they do anything to provide a market for what you have to sell and thereby keep up the value of your estate? Will they do anything for social, church, school or government support or do they take your dollars out of the community, with no returns except the goods they buy? Did you ever look at it this way?

OLENTANGY PARK.

Vaughan Granger, and his angel company, including Fay Courtney, Corinne Cantrel, Kay Blankens, Belle D'Arcy, Frank Camp, Fred Kerby, James A. Heister, Harrison Stedman, William Deming, William Ross, Wayne Campbell, Frank Carlton, Theo. Johnston, and a number of other stage favorites, begin a season of twelve weeks at Olentangy Park Theatre, Columbus, Ohio, starting Monday, June 29th. "The Man on the Box" will be the offering for the first week, and for the second week the company will present Leo Ditrichstein's hilariously funny farce, "Before and After." Following this the company will produce, "The Heir to the Heiress," "Dorothy Vernon of Haddon Hall," "The Road to Yesterday," "Gruentark," "The Other Girl," and other late high class royalty plays, insuring the very best of entertainment at Olentangy Park Theatre, during the remainder of the summer season.

Powell's Big Union Band will also give free open air concerts every afternoon and evening, and all the other hundred of amusements in the Park are open every day and evening.

The Zoological Garden, Museum of Ornithology, Floral Conservatory and Japanese Village will remain free to all visitors, and other special attractions are promised for each week.

KARL HULL - Editor.
 FRIDAY, JULY 3, 1903

However it is looked at, either by itself or in comparison with preceding platforms, the new declaration of the principles of the Republican party is a record of progress and no less a promise of further progress. The fact that both Mr. Gompers and Mr. Bryan are discredited with the platform will cause the majority of people to feel sure that it must be a good one.

Republican discipline has again triumphed over Republican discontent. Before the extra were on the streets in Chicago announcing the nomination of Secretary Taft his opponents' felicitations. Senator Foraker most prominent of the allies wrote immediately to Mr. Taft extending heartfelt congratulations and best wishes for success in November; while Mr. Taft thanked the Ohio Senator "from the bottom of my heart," and added, "I have never ceased to remember that I owe to you my first substantial start in public life, and that it came without solicitation." When the convention met in Chicago there were many signs of a revolt, but they have all disappeared now.

Mr. Roosevelt's attitude in declining to permit under any circumstances, the use of his name before the Chicago convention fixes beyond appeal as the unwritten and forever to be unbroken law of the republic, that no President under any stress of circumstances shall be given a third successive term. This decision of Mr. Roosevelt has added to his fame, and to the high estimation in which he will be held by posterity.

THE MIND OF THE HORSE.

I read with considerable indignation and protest certain prevailing views involving the intelligence of the horse which appear from time to time in our leading magazines. A recent opinion describes the noble animal which, perhaps, next to the dog holds the place of affection with large numbers of the human kind, as naturally an unreasoning coward subject to sudden and uncontrollable panic, a selfish beast of one idea, upon which it is to waste words, sympathy or kindness. According to this depressing judgment, it is a silly and dangerous custom to hold social converse with a horse. "Whin" in the shafts, and "stand over" in the stall, with a chirp of the tongue for increased speed, are the only expressions which the owner of a horse should condescend to let fall from his lips. Anything else will scatter the horse's attention, thwart instant obedience, and diminish that profound fear of the lord of creation which the horse has and must have in order to be a safe and useful slave.

I take this to be the one-sided and imperfect view of the animal. We are just beginning to learn how valuable are the scientific studies which are now being made almost for the first time in the psychology of animals. The humble hen and the mischievous monkey disclose after careful observation, mental qualities not to be despised and furnish hints of exceptional importance to the investigator of the human mind. I think the psychology of the horse, when made the subject of careful inquiry, will be found to be a far broader matter than the analysis above disclosed. The gap between the equine mind and the human mind is not so great. Take the fundamental animal aversion against the mentality of the horse, that he is subject to gross panic which shows itself in flight and injury to himself and those who cherish him. Is there anything so positively remarkable about that from a human standpoint? Not with the catastrophe of the Trojans theatre fresh in memory. Not with the countless panics of the human species which are as normal to us as breathing, under certain circumstances. No man can understand the Trojans disaster who doesn't understand the psychology of a stampede of horses. The natural social suggestibility of horse and human kind is at the root of both. The social brute, whether horse or man, is extremely suggestible. The dreadful mental epidemics in lands civilized and uncivilized pass the power of pen to portray. In unnumbered instances it has been simply the repetition of the case of the swine rushing over the precipice into the sea. The children's crusades during the middle ages towards the Holy Sepulcher, the dancing mania, the anti-Semite riots, the demonophobia, the witchcraft delusion, the financial crazes, the lynching mobs, the fearful religious epidemics of an uncontrolled revivalism which have swept across sections of this and other lands, are all human instances in which the controlling power of

reason was swallowed up in the emotional maelstrom. If the history of the human species were written from the panic standpoint, the horse would not have to hang his proud head in shame. It would be man.

The fact is that nervous instability is a normal characteristic of the higher animal mind, whether of horse or man. It is a natural concomitant of social instinct and sympathy and suggestibility. And education and experience are the environment in which, for both horse and man this natural nervous instability is progressively held in check through the development of the power of inhibition, of self-control. In man, this power develops far into the realms of reason and in many instances becomes notable for its strength and value; but not, after all, in many instances yet, when the whole population of the world is taken into account.

The difference between the horse and the man in self-control is only a difference of degree, perhaps a considerable difference, but only a difference in degree, not in kind. We praise ourselves too much on our superior intellectual qualities. They are superior, but not so vastly superior as we sometimes think. The animal cynic would go and talk with Dan Patch for half an hour in the blacksmith shop, as I did once, he would come away with greater confidence in equine nature. If he ever saw Dan Patch win a race, he would know that it is superior self-control that makes a great horse as well as a great man.

Cavalry and artillery horses some time stamped in time of war. But do regiments never do the same? I think so, if my father, who got away quickly from the first battle of Bull Run with the Fifth Massachusetts tells me the story correctly. But many a horse has learned to stand firm in the shock of battle, and many a man.

Courage and confidence and self-control are a purely human product. My experience is that nothing pays so well as the handling of a horse in the midst of danger as the time you have spent in getting into sympathy and confidence with your equine friend. I am sure it was nothing but that which prevented a bad spill when I was driving a favorite, high-strung mare of mine on a narrow country road, almost directly along the railroad track, in the midst of a heavy thunder storm with the lightning flashing and a fast freight train rushing by. To add to the complications, an insecurely buckled rein slipped out of the bit, and nothing saved us except the other rein and the confidence she had in me. And my big saddle horse, Tom, who (I say who and I mean who) can hardly be kept from walking into the post-office after me so fast as I can get away, I am going to leave him, and from whom back I talk to him as a friend talks to a friend—his intelligent comradeship and sympathy are worth having. The arch of his neck, the champing of his bit, the movements of his ears—he has a dumb alphabet which any wary man, though a fool, ought to comprehend. He does not know what fear is. His forehead is broad and his education and experience too wide. A good horse is worthy of the affection and confidence of any good man. I never could understand the human nature of an animal cynic.

Another opinion I have recently seen seems to me as far astray, viz, that the development of extreme speed has eliminated a "docility." In the horse has brought to the surface all the "devil blood" in a higher domesticated animal, and has enthroned in his nature fear instead of fearlessness, and left him with a timidity of temperament which

Man's Luck at Chivalry.
 From the beginning the "excuse of Adam": "The woman whom thou gavest to me to be with me, she tempted me," has been a favorite one with all mankind. "Cherchez la femme" is the old French proverb. "There is never a bit of mischief but a petticoat is at the bottom of it," says the old English version of the same maxim.

PROPOSED AMENDMENT TO THE CONSTITUTION OF OHIO.

JOINT RESOLUTION.
 Proposing an amendment to the Constitution of the State of Ohio to amend section 11 of article II of the Constitution.

Be it resolved by the General Assembly of the State of Ohio:

SECTION 1. A proposition shall be submitted to the electors of the State at the next election for members of the general assembly to amend section 11 of article II of the Constitution, so as to read as follows:

SECTION 2. Every bill shall be fully and distinctly read on three different days, unless it be a bill for the purpose of amending the Constitution, in which case it shall be read on one day only. The members elected to the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 3. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 4. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 5. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. SECTION 6. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 7. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 8. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 9. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 10. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 11. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 12. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 13. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 14. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 15. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 16. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 17. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 18. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 19. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 20. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 21. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 22. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 23. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 24. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 25. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 26. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 27. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 28. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 29. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 30. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 31. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 32. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 33. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 34. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 35. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 36. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 37. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 38. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 39. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 40. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 41. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 42. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 43. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 44. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 45. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 46. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 47. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 48. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 49. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 50. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 51. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 52. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 53. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 54. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 55. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 56. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 57. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 58. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 59. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 60. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 61. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 62. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 63. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 64. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 65. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 66. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 67. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 68. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 69. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 70. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 71. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 72. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 73. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 74. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 75. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 76. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. The members of each part shall be called on in the following order: first, the members of the first part, then the members of the second part, and finally the members of the third part. The bill shall be passed only if it is approved by a majority of the members of each part.

SECTION 77. The members of the general assembly shall be divided into three equal parts, and each part shall be called on a different day for the purpose of voting on the bill. Mrs. Frank Clark and children of Springfield are visiting Mr. Sidney Smith and family.

—Men's and Boys Dress Trousers and Fancy Vests, a choice line from which to select. At BIRD'S.

Mr. Harry Owens, who is employed with the Marshall Field Co., of Chicago is expected home Saturday.

—Notice to Customers: Bird's Mammoth Store will be closed from 1:30 to 6 o'clock Saturday afternoon, July 4th.

Mrs. James Murray leaves this week for a visit with relatives at Cambridge and New Concord, O.

Campbell's Varnish Stains are the original and only real Varnish Stains ever offered to housekeepers. They work like colored varnish producing beautiful effects without obscuring the grain of natural woods. CROUSE & CRAWFORD sells this line.

Miss Ella Weakley left Monday morning for Cheyney, Pa., where she will attend summer school for the next six weeks after which she will visit at Atlantic City before beginning her school at Christiansburg, Delaware.

Mr. Walter Iliff left Tuesday for Columbus where the firm of Iliff Bros., will start in a few days on a large cement contract for a railroad entering that city. The firm has just finished a contract for the Ohio Fuel Supply Co., at Utica, O.

In this issue will be found the announcement of Mr. Wm. Dodds as a candidate to succeed himself as county auditor at the coming primary. Mr. Dodds has been very successful during his term in office and has given satisfaction to the public in that branch. He is popular with the rank and file of the party and has a strong following.

The Weakley sisters entertained at dinner Thursday in honor of Mrs. Susanah Jones of Kansas City, Mo., and Miss Ella Weakley, who recently returned from Christiansburg, Delaware. Those present were: Prof. Woodson and wife, and Miss Julia Coleman of Wilberforce University; Mrs. Sarah Middleton and Mrs. Butler of Xenia; Mr. and Mrs. Walter Taylor of Indianapolis, Ind.; Mrs. Bert Taylor and Mrs. Homer Taylor of Jamestown; Mrs. Susanah Jones, and Miss Ella Weakley.

Rev. and Mrs. Mills Taylor are expected to arrive in Xenia, Thursday and will spend a day or two with Mr. and Mrs. T. B. Clark before going to Cedarville, where Rev. Mills Taylor will enter upon his duties as pastor of the R. P. church, Sabbath. They have been in Washington, Iowa, with their relatives since their wedding a month or two ago. Mr. and Mrs. Clark now have as their guests, Rev. and Mrs. Homer Henderson, of Uniontown, O. Both Rev. Taylor and Rev. Henderson were former students at the theological seminary in this city. —Gazette.

—WANTED: Butter and Eggs. We will give you the top of the market. At BIRD'S.

Benton McElwain was fined \$25 and costs in Squire Bradford's court Monday for killing a squirrel. Squirrels can be killed only during the month of October.

Mr. and Mrs. Ray and Mr. and Mrs. Johnson of Sabina were guests of Mr. Barlow and family over Sunday. Miss Ethel Barlow accompanied them home for a visit.

—You certainly make a mistake if you purchase Linoleum, Carpets, Rugs or Matting without first looking over our stock. We have a large line of every grade to show you. At BIRD'S.

The Greene County Teachers' Association will be held at Xenia, O., August 24-25, 1908, instead of the first week of September as formerly. Instructors will be: Francis Richards, Miami University, Oxford, O., and A. H. Snyder Iowa State College, Ames, Ia.

Jeffersonville is talking natural gas, a number of Washington C. H. business men being interested in the company. It is stated that the Springfield company after the liberal proposition made by the citizens of Yellow Springs, has turned down the gas franchise. Yellow Springs will now make an effort to secure electric light.

The Dayton and Xenia Traction Company, which abandoned the operation of the Rapid Transit line several months ago will give up its franchise for this line and will tear up the tracks. The Dayton & Xenia Traction Company has notified the auditor of Montgomery county that effect, so that he need not be given the trouble of putting the bankrupt line on the tax duplicate.

Mr. D. L. Crawford has been chosen superintendent of the Xenia township schools. The board at its next meeting will formally elect him to that position. Mr. Crawford for the past year has been a partner in the hardware firm of Crouse and Crawford, having been previous to that time the efficient superintendent of the Cedarville township schools. Mr. Crawford is regarded as one of the best public school educators in the county and his work in bringing the township schools up to the highest standard spoke volumes in his favor when the Xenia board took up the question of township supervision. The salary is given as \$1,000 the first year and \$1,200 the second.

In the last issue of the Herald there appeared an advertisement of Bird's Mammoth Store. In the list of advertised articles was "25 pounds of sugar for \$1.00." The error being made by Mr. Bird in preparing his copy caused patrons to call for this great bargain. There was no intention on Mr. Bird's part of deceiving his patrons in his advertising. He could hardly afford to sell 25 pounds of sugar for \$1.00 when it costs about \$1.40. It is well known there is a little profit in sugar as any article a grocer handles. The Herald has the satisfaction in knowing that its readers take advantage of "store news" as was proven in Mr. Bird's case. A few cents will, in most cases, rent your house, recover lost articles or sell the little things about the house or farm that are not needed. Try it and be convinced.

Miss Martha Bromsger has returned from Indiana, where she has been the guest of relatives for some time.

Miss Mary Kennon returned home Sunday evening after a visit with her aunt, Mrs. C. B. Huffman of Springfield.

—ICE CREAM FREEZERS, the Lightning and Blizzard in 4, 6 and 8 quart sizes. At BIRD'S.

Rev. Mills Taylor, who recently received a call to the Reformed Presbyterian church is expected to preach here Sabbath.

Mr. George Stewart, who has been attending a medical college in Battle Creek, Mich., is home on his summer vacation.

Mr. Samuel Conwell and daughter Anna, of Xenia, spent several days last week with Mr. Linn Wilson and wife.

Mr. and Mrs. Fred McElwain returned to Delaware, O., Friday evening after a two weeks' visit with relatives here.

Mr. and Mrs. T. G. Fitch have for their guests, Mr. W. J. Fitch of Buffalo, N. Y. and Mrs. Ruth Thompson of Carnegie, Pa.

—Ladies' Wrappers, Dressing Sackies, Muslin Underwear, Gause Union Suits, Heatherbloom Skirts. At BIRD'S.

Mr. Woodbridge Ustick arrived Wednesday evening from Cleveland where he has been located for some time. He will remain here until after the Fourth.

—THE MIND OF A HORSE. Continued from Second page.

causes him to take to the woods by the shortest route, whenever that dread-inspiring monster of modern life—the automobile—comes his way.

Careful scientific breeding may well pay attention to the perfection of the mental and shall I say moral, qualities of the horse as to his muscles and his nerves. In the long run it will be found that the fastest horses have the finest balance of mental as well as physical heredity. The goal of high-breaking is a horse which has not only speed but level-headedness, for mental poise makes speed far more effective. Of two horses each with physical capacity for traveling a mile in 2:10, the animal with the better brain will win four times out of five, the driver's ability and other factors remaining the same.

Furthermore, well-bred horses that are broad-headed and have fine brain power with high spirit and courage, are the safest under many trying and extraordinary circumstances. If one is at all capable of handling a good animal, his experience is that most of these "docile" horses are doltish and you will do well to look out for them in a case of emergency. They cannot think quickly enough, and go all to pieces in a critical moment, unless, indeed, they are of the sheep species and not real equines at all. Of course there are some of this latter class that are safe and sure and slow. But they lack something of being horses.

As for fear, what one should look for in a driving animal is not something which is so dull and dumb that ordinarily he does not know fear, but rather a horse that is so well balanced in heredity and so well broken that he will not give way to fear. This is a higher mental trait, just as in man. I have a little Wilkes mare, swift and highly bred, which had to confront for the first time a little while ago the rush of sleds down Hamilton College hill in the winter time. Sometimes the sleds would pass with great rapidity within two or three feet of her. Afraid of them? Of course she was. She trembled but she didn't flinch. Her head was lifted a little higher, every nerve was strained, one ear turned backward to listen for the master's word of encouragement, but she never swerved an inch from her section of the King's highway.

I would rather drive the great pacer Dan Patch or the great trotter Ceresus past an automobile for the first time than any "docile" horse that was ever foaled. One of that strain backed me into the first trolley car he ever saw, in spite of all I could do to prevent it. I have never cared for the breed since.

To animal cynics everywhere I commend these words of Coleridge: His prynth best, who loveth best, both man and bird and beast. His prynth best who loveth best all things both great and small. For the dear God who loveth us he made and loveth all.

And these from Kipling: There was never a queen like Balkis from here to the wide world's end but Balkis talked to a butterfly, as you would talk to a friend.

There was never a king like Solomon nor a queen like Balkis, but Solomon talked to a butterfly as you would talk to a man. She was queen of Babylon, and he was Aida's lord.

But both of you talked to butterflies when they took their walks abroad. By Frederick M. Davenport, Prof. of Political Science Hamilton College.

—FOR SALE: Fresh short horn cow, five years old. Charles Raney

The Library will be open at the Township (Clerk's) office, the usual hours on Wednesday and Saturday of each week until further notice. Florence E. Forbes, Librarian.

Misses Evelyn and Bessie McGovern have returned home after a ten days stay in Yellow Springs attending the chautauque.

Tuesday night Officer Kennon caught Moss Jones with a quantity of corn. Investigation was made which resulted in D. S. Ervin filing a charge against Jones. It is alleged that the corn was taken from Mr. Ervin's crib while Jones claims he got it at George Steel's. Mr. Steel says that his crib was locked and that he has not missed any corn. Jones was bound over to the grand jury under a \$200 bond.

The Antioch Chautauque, closed Sabbath with the greatest attendance of the season. It was estimated that between seven and eight thousand people were there. Early Sabbath morning strings of vehicles passed through here on their way to the Neff Grounds. Dr. Fess had a very expensive program costing about \$2,800. It is stated that the Dr. will not be out anything this year as last. The people of this vicinity gave excellent support and appreciated the efforts that Dr. Fess put forth.

THE OFFICE RAILING.

Its Various Uses Set Forth by a Man Who Works Behind One.

"The office railing," said an office man, "is, to be sure, intended primarily to keep people out. It is a barrier at which people can be held up and made to wait if they are not wanted within, and many a man has stood there and waited and twiddled his thumbs and choked down his impatience waiting for somebody inside to tell him that he could come in or to send word to him that he was to go away, while all around within, the men keep on at work serenely.

"But the office railing has another use besides that of keeping people out. It is a barrier the passing of which may easily be counted as an honor by those who are invited in.

"Let some customer come along by chance that way or to see the boss or some member of the firm, and does he have long to wait? Perhaps the member from his desk sees him as he comes along, and he's at the gate in a minute with hand outstretched and—

"Why, Mr. Stiggby! How are you? Come right in!"

"And he fairly drags him in, he's so glad to see him, and he sets him down in a comfortable chair by his desk, while he himself forgets his own work and sits back in his own chair and smiles in his pleasure at meeting Mr. Stiggby again, and then—

"How are things going in Madville, Mr. Stiggby? How does the outlook strike you at the present moment generally through the west? and so on and so on.

"And does this friendly reception and prompt admission to the owner's sanctum, this taking of him in behind the railing and asking his opinion of things, have a tendency to diminish the size of the bill of goods that Mr. Stiggby buys?"

"No."

"Oh, various are the uses of the office railing!"—New York Sun.

Preached on His Knees.

The pulpit in the nave of Westminster abbey has a movable floor, which can be raised or lowered at pleasure to suit the height of the preacher. One day a very short man was expected to preach, and the pulpit floor was raised considerably. Being prevented by illness or some other cause, he was unable to fulfill his appointment and at the last moment a substitute had to be provided. The clergyman who obligingly undertook the office proved to be a man of lofty stature, of stature much above the average. On reaching the head of the pulpit staircase he saw, to his dismay, that the official in charge of the simple machinery had apparently not been informed of the change of preachers. The clergyman was equal to the occasion. He scrambled in on his knees and in that uncomfortable position preached the sermon. No one in the vast congregation noticed the unusual position of the preacher.—London Telegraph.

Two Gifts to the Orchestra.

On one occasion when Von Bulow had to conduct an orchestral concert at which a piece written by an aristocratic amateur was to be performed the composer requested permission to direct a rehearsal and on obtaining it opened a parcel containing seventy pencils, which he handed to the members of the band, asking them to mark his intentions in their parts, as he would give them by word of mouth.

Hans von Bulow noted this matter of detail and left the hall. "Recently he returned, also with a parcel, and on resuming his place at the desk gravely handed out seventy pieces of India rubber, with which the players were to erase the directions which the composer had given them.

A Bare Possibility.

In his diary, which is incorporated in the "Life and Letters of Sir Richard Claverhouse Jebb," the great Greek scholar recorded a flash of his own wit which is of a most appealing variety.

At a dinner at Cambridge Sir Richard, then Mr. Jebb, took in a young woman, who got through the first course with little conversation. Suddenly she startled him by saying in the most unprovoked way while she was still dining with apparent good appetite:

"Professor Jebb, do you think women ever die of a broken heart?"

"Perhaps other organs may have something to do with it," he professed in reply.

Books.

When I consider what some books have done for the world and what they are doing, how they keep up our hope, awaken new courage and faith, soothe pain, give an ideal life to those whose homes are hard and cold, bind together distant ages and foreign lands, create new worlds of beauty, bring down truths from heaven, I give eternal blessings for this gift.—James Freeman Clarke.

It is Shorter.

Kinnane Bros. Big July Sale

Great Mid-Summer and Re-adjustment Sale

Starts Monday July 6th and Continues the Entire Month.

Every body for miles surrounding Springfield knows when Kinnane's say "SALE" they mean "SALE" as our past Re-organization sale indicated. The unusual success which attended it was simply phenomenal. This will be a sale of surprises—a sale of Economics, such as was never before attempted. MORE ENTHUSIASM will be created because of the many surprising offerings—MORE ACTIVITY because of the easier purchasing power your money will have. In fact our determination is to make this July Sale, a Sale you'll always remember. Everything pertaining to Summer Merchandise will positively be ALMOST GIVEN AWAY. Everything else throughout our store will of a necessity be sold regardless of cost.

This sale will be doubly interesting for the reason the of newness of all Merchandise and the Money Saving Economics it involves. Women's ready-to-wear Tailored Suits. Skirts and Coats will be a feature remarkable, Misses and Children's Wash Suits, Muslin Underwear and Shirt Waists, Women's Wash Petticoats and Silk Petticoats, all these must be cleaned up. Wash goods in colors and white, the big stock will doubtless only remain big for a few days. Lace curtains, quilts, potieres, draperies all included in the sacrifice price list, carpets, rugs, linoleums, oil cloths, mattings, window shades, poles and grill work, Men's and Women's furnishings, hosiery, underwear, gloves and accessories to Women's outfit. Read circulars with details and prices which will be distributed to your homes, then come and make our store your Headquarters.

REMEMBER SALE STARTS JULY 6th.

N. B. Your round trip fare will be returned you on all purchases of \$15 and over by The Merchants' Association and one per cent. in addition on all amounts above \$15.

Respectfully,

KINNANE BROTHERS.

DISTRIBUTING DEPOT FOR

"Pittsburgh Perfect" Fences

For some time we have been investigating a New Idea in Wire Fencing. After a most careful examination we have been convinced that we have found the best field fence manufactured. "Pittsburgh Perfect" is made of all galvanized steel wires. It is the only fence welded by electricity. Every rod is guaranteed perfect. All large wires, the stays being the same size as line wires. It has no wraps to hold moisture and cause rust.

If You Are Looking for a Fence

- That will stand HARD USAGE;
- That will not SAG DOWN or CURL OVER on the top;
- That has stays that WILL NOT SLIP;
- That will CONFORM TO UNEVEN GROUND;
- That has NO SLACK WRES;
- That does not require an EXPERT TO ERECT;
- That is LOW IN PRICE—

Then Read What We Guarantee

- The stays are ELECTRICALLY WELDED to strands, forming a perfect union and an amalgamation with the strands not found in any other fence.
- No wraps to get loose, or hold moisture and cause rust.
- No projections to injure stock or tear wool from sheep.
- Stronger at the joints than any other fence; welded together by electricity.
- Guaranteed that the wire is not injured at the joints.
- Guaranteed adjustable to uneven ground.
- Guaranteed that stays will not separate from strands.
- Guaranteed all right in every particular.
- Made by the most modern process and on the latest improved machinery.
- Most of the weak points in other fences are on account of the way the stays are fastened. Our stays are amalgamated with the strands by means of electricity and the strength of the fence increased a hundred fold over the strength of a fence where the stays are wrapped or clamped on the strands.

If by this time you are interested, come and see this fence and get in your order. If you are skeptical come and be convinced. We add our personal guarantee to everything claimed for it and would be pleased to submit prices.

Don't fail to see us before buying your fencing. Don't put it off until you are ready to use it, but place your order in advance, as we cannot carry all sizes in stock.

Crouse & Crawford.

YOUR APPETITE

If your appetite is poor, eat meat. To tempt your appetite and nourish the system our choice meats are not excelled by anything. The weak and the strong, the small and the hearty eater alike enjoy them.

This month's Butterick Patterns are 10c and 15c—none higher.

Put Your Money In a New Country

The Pacific Coast extension of the Chicago, Milwaukee & St. Paul Railway now under construction, opens to the settler thousands of acres of excellent agricultural land. The new country in Adams, Hettinger, and Bowman Counties, North Dakota, and Butte County, South Dakota, is now reached by the new track. The soil is a dark loam with clay subsoil, and produces in abundance wheat, oats, barley, flax, corn and potatoes. The land is well adapted to farming, good water is found at a depth of from twenty to fifty feet, and the whole country is underlaid with lignite coal that outcrops along the streams, and in most cases can be had for the digging.

The climate is healthful, the air is dry and invigorating, and the percentage of sunny days is high. Outdoor work can be done almost every day in the year. Rainfall is amply sufficient to raise the crops. Regular mail service has been established, the roads are good, rural telephone lines traverse the country, and automobiles are in common use. The deeded land in this district sells for from \$10 to \$18 per acre. There are many instances this year where the crop equalled in value the cost of the land.

In Butte County, South Dakota, there is considerable government land open for homestead entry. Government land offices are maintained at Lemmon, Hettinger and Bowman, where filings and final proofs may be made. All of these towns are on the new line of the

Chicago Milwaukee & St. Paul Railway

In Montana, the new railroad traverses good farming land. It has been demonstrated that big crops of grain may be raised. Along the Yellowstone and Musselshell rivers, the water is used for irrigation, and phenomenal yields of alfalfa, sugar beets, and grain, are always certain. In the Judith Basin near Lewistown, Montana, is one of the most remarkable sections to be found on the new line. Under natural rainfall, the famous bench lands produced this year an average of 35 bushels of hard wheat to the acre, and the price was 94 cents per bushel. The basin contains about 1500 square miles and is sparsely settled. Some government land still remains open for settlement. A government land office is maintained at Lewistown. In Fergus County, outside the Judith Basin, is one of the greatest stock countries in the world, and good ranches can be purchased at a reasonable figure.

The Chicago, Milwaukee & St. Paul Railway Co. has established an immigration department for the purpose of assisting in the settlement and development of the new lands now being opened. Pamphlets descriptive of its resources will be forwarded free on request.
